

► What our clients say

"In searching for an IT Trading System, my criteria are effectiveness, competitiveness, reliability and good support and back-up services. I found that Just Commodity's ContraXcentral system meets these requirements." I am pleased that I have made the right decision.

Mr T C Ong
Head of International Trading, Golden Agri-Resources

"It may have taken more time than I would have liked to select our technology partner, but I believe I have made the right choice by teaming up with Just Commodity."

Mr Yong Chin Fatt, Director
IOI Commodity Trading Sdn Bhd

"Our requirements are met as CXC is tailored to meet our standard procedures, and we do not have to jump through hoops to get things done. They have a deep understanding of the Commodity Trade, making them ideal partners in co-developing the KLK system."

Mr Albert Koay, General Manager, Group IT
Kuala Lumpur Kepong Bhd

"With the use of CxC system, it simplifies our marketing work. CxC also enhances our control of data and now we can spend more time on data analysis. CxC is able to customize specific local Indonesian requirements which other vendors are unable to offer."

Mohd Nizam Zakaria, General Manager, Marketing Support
PT Minamas Gemilang

► Why ContraXcentral™?

ContraXcentral is developed to reduce paper-based records and to improve efficiency, freeing up more time to focus on your core competencies. Identifying areas which require the consolidation of information, creating reports and alerts based on these data, ContraXcentral communicates accurate data easily and keeps mistakes and time-consuming errors to a minimum.

By supporting all back-end functions that influence communications and update all contracts and information for internal and external review, ContraXcentral enables your trading flow to be smoother and enables your organization to answer quickly to market changes.

ContraXcentral is JustCommodity's effective and flexible contract management suite for your commodities trading business. Reducing risk and errors with an adept and stable platform for businesses to exercise greater control and capitalize on real-time data for maximum returns.

► JustCommodity – Solutions for every commodity

ContraXcentral is developed by JustCommodity to service any commodity trading organization. A key benefit for ContraXcentral is its compliance to most trading functions and ability to integrate with other enterprise solutions. JustCommodity has the expertise to customise the process to work for each and every industry, whatever the business model.

With in-depth knowledge on each industry, JustCommodity can offer bespoke software solutions using ContraXcentral for every area of commodity trading.

JUST COMMODITY

JUST COMMODITY

Are You Connected?

Constant growth in emerging markets and increasing global demand calls for continuous evolution. Businesses now need to improve operational efficiency of their supply chains and reduce risks to cope with erratic market conditions.

JustCommodity, the leading software expert in commodities trading, has developed the answer for every commodity trading workflow. With its keen understanding of the commodities business and the industry's needs at every level, JustCommodity's ContraXcentral™ – the system that looks after your commodity business processes from start to finish.

► ContraXcentral™ Key Benefits

Integrated Business Processes

ContraXcentral™ connects and creates a single business process across all business units and allows seamless communication throughout the entire value chain. This translates to an efficient workflow process that supports all back-end functions.

Compatible with all leading ERPs

ContraXcentral™ can be incorporated with all leading ERP solutions, assimilating your existing systems and keeping business processes seamless. In addition, with the guidance of our expert consultants on-site, any arising problem can be easily resolved.

Global Access for Every Level

ContraXcentral™ gives users around the world 24/7 access to business information securely. User access controls and permissions ensure viewing of sensitive data is available to appropriate persons and that Management stays informed of potentially risky trading activities.

On-demand Management Reports

ContraXcentral™ enables reports to be captured at three levels – by trader, by desk and at Group level. Standard reporting is consolidated quickly and in addition, customized reports can also be generated to meet specific organization needs.
